

Cipher Labs Model 1660 BT Portable CCD Scanner

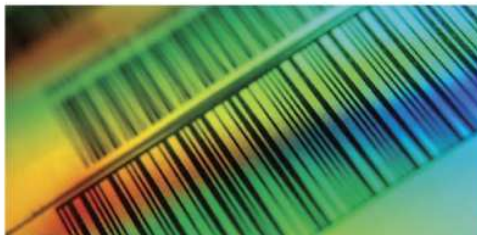

CIPHERLAB'S NEW 1660 BT SCANNER WITH 3610 BT TRANSPONDER

Introducing tiny new BT scanner.
Small, light and very affordable.

From the BT scanner pioneers. CipherLab ingenuity, CipherLab quality.

Easy to use, even easier to sell. If you can point and click, you already know how to use this scanner. The matching 3610 Transponder makes BT set up pairing almost instantaneous.

Fits everywhere, works anywhere. Pocket-size scanner runs on handy AAA batteries, goes to work with you, just like a mobile phone.

We can't guarantee the new 1660 is the smallest, lightest and least expensive BT scanner in the world.

We do guarantee this is the perfect combination of easy to use and easy to buy. Almost everyone can find an immediate use for the handy little 1660: retail, logistics, health care, manufacturing, warehouse and more.

CipherLab is a global leader in the design, manufacture and marketing of AIDC products and systems. Watch for more exciting new products this summer: www.cipherlab.com
